

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the interview with the Examiner.

The Examiner's highly beneficial cooperation during the interview has been gratefully acknowledged.

During the interview the Examiner indicated that further clarification of the claims would be advisable with respect to the at least one of the conductor tracks produced by metallization on one of the two different plastic components of the plastic body.

In connection with this, Claims 1 and 15 have been amended, in compliance with the Examiner's requirements.

It is believed that the present application as defined in the independent claims clearly and patentably distinguishes the present invention from the Prior Art applied by the Examiner against the original claims.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance; he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'M. J. Striker', with a long horizontal flourish extending to the right.

Michael J. Striker
Attorney for Applicant
Reg. No. 27233
